EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

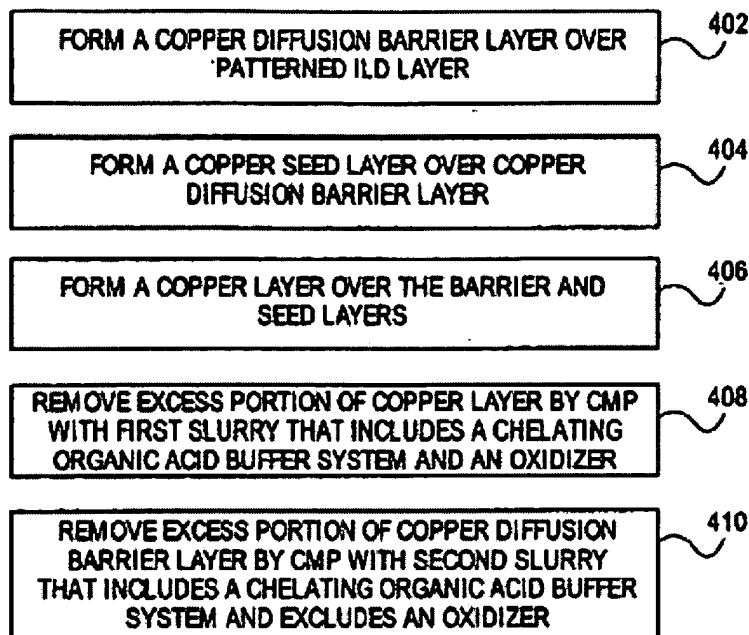

Authorization for this examiner's amendment was given in a telephone interview with Mr. George Saile on July 23, 2004.

The application has been amended as follows:

On page 1 of the specification, after "serial number" inserted "10/714,985", after "filed" inserted " November 17, 2003", and after "entitled" inserted "Copper CMP Defect Reduction By Extra Slurry Polish".

2. The following is an examiner's statement of reasons for allowance: The specific limitations of "conducting a fourth ... upper dielectric layer portions" in the combination as claimed in claim 1, "conducting a fourth polish step ... upper dielectric layer portions" in the combination as claimed in claim 24, and "conducting a fourth polish step ... dielectric layer portions" in the combination as claimed in claim 46 are not anticipated nor made obvious by the prior art of record in the examiner's opinion. For example, Miller et al.'6,740,591 in Figure discloses a method of chemical mechanical polishing copper.

Art Unit: 3723

With reference to Figure 3, Molina discloses a method of reducing scratch in semiconductor circuit fabrication using CMP.

Art Unit: 3723

However, the prior art of record fails to provide or suggest the specific limitations of “conducting a fourth ... upper dielectric layer portions” in the combination as claimed in claim 1, “conducting a fourth polish step ... upper dielectric layer portions” in the combination as claimed in claim 24, and “conducting a fourth polish step ... dielectric layer portions” in the combination as claimed in claim 46.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Nguyen whose telephone number is 703-308-0163. The examiner can normally be reached on Monday-Friday/630AM-300PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Joseph Hail can be reached on 703-308-2687. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
